DURACELL® PROCELL PROFESSIONAL ALKALINE BATTERIES

THE EFFICIENT POWER CHOICE

The Duracell Procell battery is designed for the demanding industrial and professional user. They are made to exacting specifications to provide dependable, efficient, and long-lasting performance. Duracell's guarantee covers the quality and workmanship of Duracell products. Extensive testing and analysis of battery usage patterns are performed to determine the factors having the greatest impact on battery performance.

Procell batteries are economically packaged in bulk for volume users and are individually date-coded. Duracell has developed the longest lasting battery ever.
